

VOICE aims to contribute to the reduction of hate speech and cyberbullying through development of digital, media competences as well as personal, social, citizenship competences of (pre)primary school children, teachers and parents. We are developing documentary film, animation film, mobile app and method for teachers

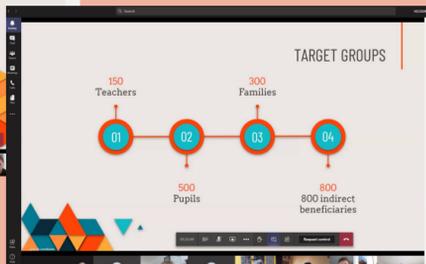

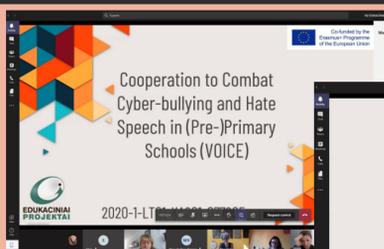

VOICE project

VOICE is focusing on the challenges of the digital world – cyberbullying and hate speech online – and proposes a different approach of work – listening to the opinion of children and promoting co-education where schools as well as parents are involved in solving these issues.

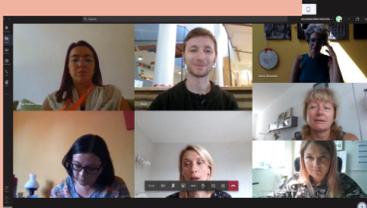

2. PARTNERS

The consortium involves 5 partners from 5 European countries: VŠJ EDUKACINIAI PROJEKTAI (Lithuania), Zaffiria (Italy), Norsensus Mediaforum (Norway), VI One Consultancy (the Netherlands), Bucovina Institute (Romania) and more than 8 associated schools involved in (pre)primary education

Kick off meeting

VOICE) has started with the first online meeting which took place on Friday, 11th of September 2020. The meeting was a productive one and offered us the chance to meet each other and to find out more about the five partner organizations.

The project has set up the following objectives:

- To find ways of collaboration, create a space for dialogue between teachers, parents and children that can facilitate the resolution of harmful or dangerous situations online by activating the positive resources of the communities and external stakeholders involved;
- To listen to the point of view of children and enable them as EU citizens to debate and reflect on the project topics;
- Experimenting with participatory tools and methodologies that enhance media production and participatory word taking for a new relationship with the media and technologies and for new alliances;
- Production of guidelines, methodology that can accompany European stakeholders in activating the active participation of people in education and childcare policies;

INTELLECTUAL OUTPUTS

101 Documentary

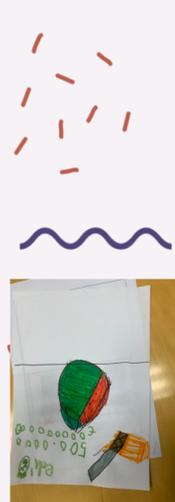

102 Cartoon

103 Interactive Notebook (App)

104 Toolkit for Teacher Training

Documentary with interviews with children explaining their point of view on cyberbullying and hate speech

Flowing shapes can be used to convey a natural, approachable, and genuine feeling throughout your designs. They also pair well with other design trends, like muted colors and heavy fonts for a unique composition.

CARTOON

Creation of a cartoon on the subject to raise awareness of the phenomenon thanks to children creativity and ideas and to promote co-education in the family, school.
